## East Central Regional Juvenile Center Advisory Board 2023

As outlined in the East Central Regional Juvenile Center Joint Powers Agreement, the board of commissioners of each member county shall appoint two persons to participate on an advisory board and act as liaisons with the other member counties. The advisory board serves in an advisory capacity and not a joint powers board under Minn. Stat. § 471.59. Advisory board members primarily consist of one county commissioner and one county director from each member county.

The duties of the advisory board are to:

1. Review and comment on Anoka County's proposed annual facility operating budget and per diem charges prior to adoption by the Anoka County Board of Commissioners.
2. Assist in and review the ongoing coordination of the facility use including bed usage and bed allocation.
3. Assist in and review the development of the programs offered at the facility; and
4. Assist in other matters relating to the facility as requested by Anoka County.

## Changes to Crime Data Collection

Starting in 2021, the Minnesota Bureau of Criminal Apprehension (BCA) began reorganizing crime data into a new web-based tool called the Minnesota Crime Data Explorer (CDE). Crime data is collected through the National Incident-Based Reporting System (NIBRS).

NIBRS was implemented to improve the overall quantity and quality of crime data collected by law enforcement by capturing more detailed information on each single crime occurrence. It is the FBI’s incident-based reporting system for crimes known to law enforcement. Local, state, and federal law enforcement agencies collect a variety of details about each incident, including the time and location of the crime; the circumstance of the incident; the characteristics of the victim and offender (age, sex, race, and ethnicity); the victim’s relationship to the offender; the involvement of weapons or drugs; property loss; and whether the crime was motivated by bias.

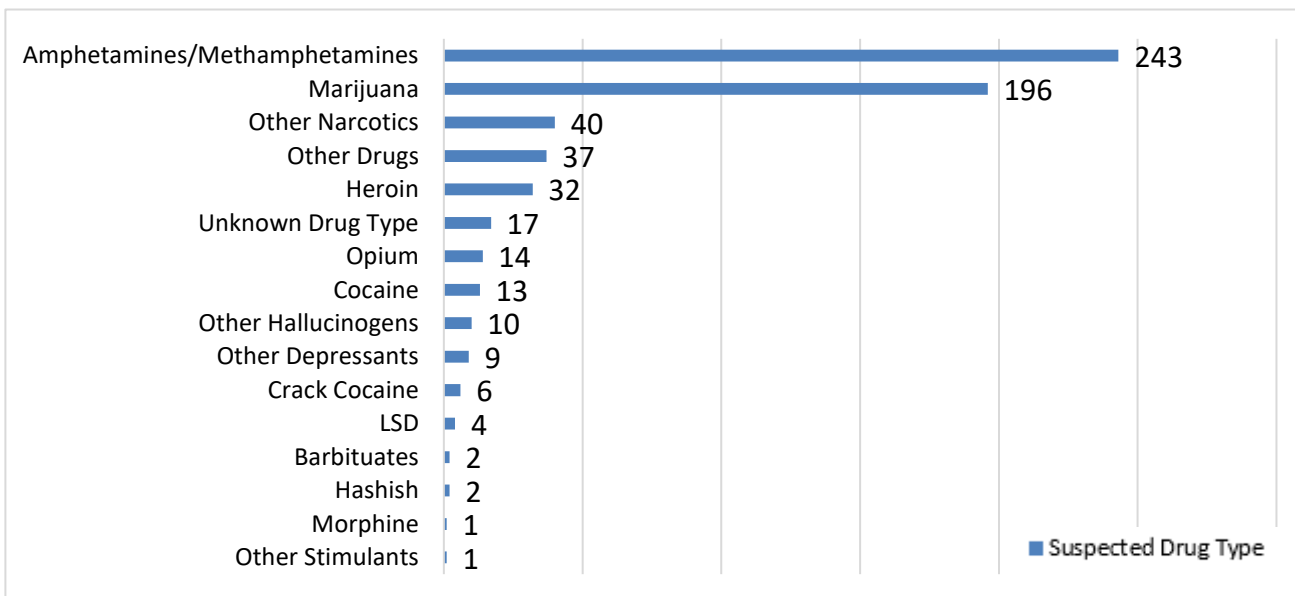

Minnesota crime data is submitted by Minnesota law enforcement agencies as required by state statute and federal law. Each reporting agency is responsible for the accuracy, completeness, and timeliness of their data. Any comparisons with previous years should be viewed with caution. For this report, the crime data for 2022 was downloaded from the CDE website on March 9, 2023.

### Anoka County Group A & Group B Arrests\* Adult & Juvenile Combined

# Adult Court Pre-Sentence Investigation Unit

The Adult Court Pre-Sentence Investigation (PSI) unit has 14 probation officers.

- 6.0 FTE felony probation officers complete criminal record checks, pre-sentence investigations, and appear in court on felony revocation hearings, along with .25 temporary staff.
- 1.5 FTE probation officers complete Rule 25 chemical dependency assessments.
- 5.0 FTE misdemeanor probation officers and 1.0 FTE assistant probation officer complete alcohol problem assessments, short-form background investigations for domestic abuse and other misdemeanor offenses, felony diversion assessments. Misdemeanor probation officers also do record checks, appear in court for probation revocation hearings, monitor compliance with specific conditions, and provide backup to the one probation officer who does bail evaluations.

Pre-Sentence Investigations provide background information and sentencing recommendations for many adult cases.

## Rule 25 Chemical Dependency Assessment Unit

### Assessments Completed by Corrections

Offenders may be court-ordered to provide a chemical health assessment. If eligible, the State of Minnesota offers to pay for a Rule 25 chemical dependency evaluation and assessor recommended treatment.

\*NOTE: Rule 25 evaluation funding ended on June 30, 2022 and was replaced by the Direct Access program. Direct Access allows for an individual to choose where they would like to access treatment by removing Rule 25 placing authority and the MMIS Service Agreement which dictates the provider and units authorized by the placing authority. Individuals will be able to seek out the provider of their choice. The county continues to determine individual’s financial eligibility for the Behavior Health Fund.

# Adult Supervision

Anoka County Corrections manages adults court-ordered to probation supervision and supervised release from prison. Adult supervision services and the Workhouse facility are located at the Rum River Human Service Center campus in Anoka.

Correctional clients are supervised according to their assessed risk to reoffend, programming needs, and unique case circumstances. Moderate and high-risk clients receive enhanced supervision and case management services from an individual probation officer. Lower risk clients are managed by a team of officers in a group reporting format at the Probation Service Center. Probation officers utilize research-based strategies to manage client risk and promote change with accountability to supervision conditions.

All felony level offenders are assessed for risk and individual programming needs using the Level of Service-Case Management Inventory (LS/CMI). This tool assists probation officers with case management planning by evaluating risk factors including criminal history, education, employment, peer relationships, substance abuse, and attitudes.

**MN Department of Corrections Supervised Release Case Referrals Received by Anoka County**

## Traditional and Enhanced Field Supervision

High risk cases are assigned to an individual probation officer in either the Traditional or Enhanced Unit. Officers complete office and community contacts, develop supervision case plans, monitor conditions, and respond to non-compliance. The Traditional Unit is comprised of 11 officers assigned to geographic regions of Anoka County. The Enhanced Unit includes three intensive supervision officers, two pre-trial officers, two high-risk DUI specialists and three Intensive Supervised Release (ISR) agents. ISR agents manage the highest risk individuals released from prison including predatory offenders. One probation officer manages the IDAPP domestic assault pre-trial program.

## Sex Offender, Domestic Abuse, & Mental Health

Eight specialized probation officers provide intensive supervision to the majority of sexual and repeat domestic assault offenders in Anoka County. A specialized mental health agent and social worker share a caseload of clients with significant mental health concerns.

## Probation Service Center (PSC)

Medium and low risk clients typically require less supervision. Three 2-agent teams manage caseloads of medium risk cases primarily through office contacts and condition monitoring. The lowest risk and those who have completed all conditions are assigned to the large PSC Case Management caseload with condition monitoring and little face-to-face contact.

# Specialized Supervision

**Sexual Offender Supervision:** Sex offender probation officers receive specialized training in community supervision and treatment of sexual offenders. Probation officers work collaboratively with law enforcement, treatment providers, polygraph examiners and mental health professionals in the management of these cases.

Clients are closely monitored in the community and often seen at their homes or places of employment. Most are required to register their addresses, employment, and vehicles with the Bureau of Criminal Apprehension (BCA). Sexual offenders are subject to specialized supervision rules, polygraph testing, sexual offender treatment programming, and group supervision meetings.

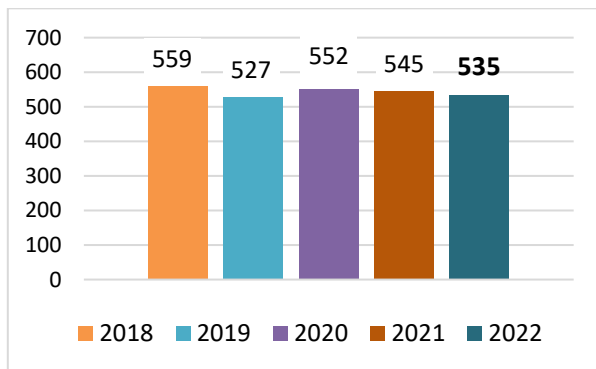

**Domestic Abuse Supervision:** Repeat domestic assaults and cases assessed at high risk for re-offense are assigned to specialized DV probation officers. These highly trained staff work closely with victims and advocates, community treatment providers,

social services, and law enforcement. Most clients are ordered to complete intensive domestic abuse treatment programming and may be restricted from contact with victims. All are subject to random home and employment visits and drug testing.

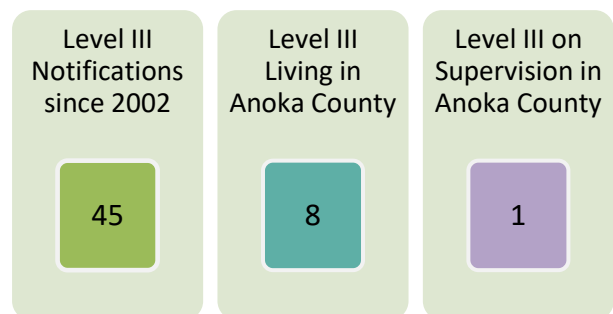

**Mental Health Supervision:** In 2019, Anoka County Corrections implemented a specialized caseload of high-risk adults with significant mental illness managed by a probation officer and adult mental health social worker team. The target population is high risk adult probation, supervised release, or pretrial cases with significant mental illness that pose a risk to themselves or others or are struggling under traditional community supervision.

This supervision approach improves client access to mental health services, expediting assessments and mental health treatment alternatives to incarceration. It also reduces duplication of services between Corrections and Social Services departments.

Source: Minnesota Department of Corrections

### Sex Offender Pre-Sentence Investigation (PSI) Totals

Sex offender pre-sentence investigations are very detailed and take a considerable amount of time and energy to complete. In addition, as each offender that is sentenced is placed on a specified term of conditional release, sex offender caseloads are expected to continue to increase each year for the foreseeable future.

## Probation Service Center (PSC)

The Probation Service Center (PSC) manages the largest caseloads supervised by Anoka County Corrections. The unit is staffed with 11 probation officers and 4 assistant probation officers.

PSC caseloads are comprised primarily of medium and lower risk clients determined by risk assessment or supervision adjustment. Some cases are assigned directly to PSC from sentencing based on assessment or supervision condition criteria. Other cases transition to lower supervision from traditional or enhanced field supervision following successful adjustment to supervision and risk reduction.

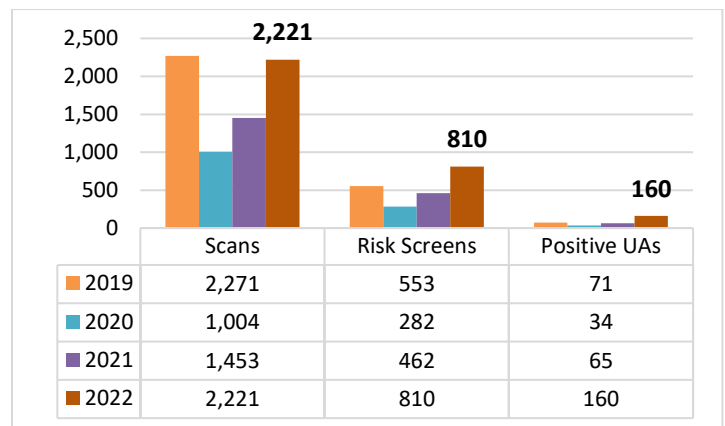

Probation officers use a team approach and computer technology to manage this high-volume caseload. Agents perform the traditional probation case management duties including reviewing cases, client meetings, preparing reports and appearing at court hearings.

The PSC “reporting center” supervision model was developed by Anoka County Corrections in the late 1980’s and replicated across the state. The model enabled agencies to manage large volume caseloads of appropriately identified offenders more effectively with limited resources.

In 2018, Anoka County redesigned this unit, improving case management and increasing efficiencies with technology. The model enhances supervision for medium risk and more problematic cases.

PSC also manages the transfer of adult cases sentenced in Anoka County and living in another jurisdiction. Two transfer liaison agents manage this task. Three staff manage the department’s Drug Testing lab.

## Community Work Service / Restitution

Three case managers monitor adult and juvenile offender condition compliance in holding the offender accountable to the court. Case managers meet with adult and juvenile offenders after sentencing and interview them to determine their appropriateness for being placed at a non-profit organization to do their community service. The unit recruits and coordinates with approximately 200 non-profit work sites. Community Work Service provides a restorative justice option and fine alternative for low level and indigent offenders.

## Juvenile Probation Supervision

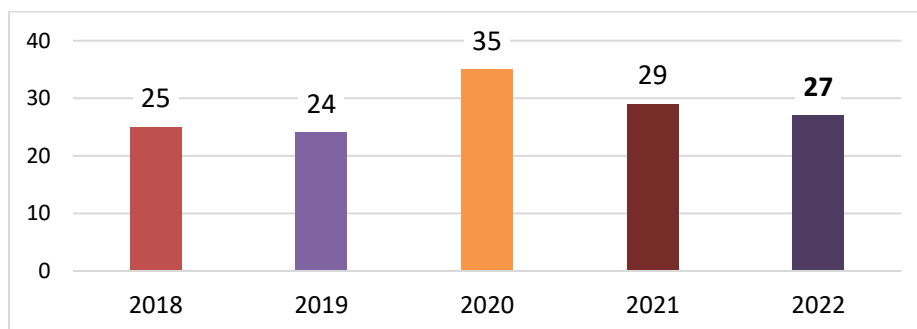

The Juvenile Field Supervision Unit supervises Anoka County residents who are adjudicated delinquent and placed on court-ordered supervision. Offenders who are deemed to be high-risk, as determined by the YLS/CMI assessment tool, are assigned to the Juvenile Intensive Unit; while medium- to low-offenders are assigned to generalist supervision or ProjPC for condition monitoring.

Within the Juvenile Intensive Unit, there are four specialized caseloads:

1. Extended Juvenile Jurisdiction (EJJ) cases supervised by one (1) probation officer who is presently supervising 7 EJJ cases.
  - The EJJ caseload had four (4) clients released successfully from probation during 2022.
  - There were two (2) clients that had their EJJ status revoked in 2022.
2. Sex specific caseload, which has two (2) staff assigned supervising approximately 27 total cases.
3. Intensive supervision caseload has four (4) staff assigned supervising approximately 17 cases each.
4. The medium and low supervision cases are monitored by 3.8 regular staff.

## Pines School – 2022 Update

Anoka County Community Corrections operated the Pines School from 1997 through June 30, 2012. On February 28, 2012 the Anoka County Board of Commissioners approved the withdrawal from the longstanding joint powers agreement with Centennial School District #12 to operate the juvenile center school. This essentially meant Centennial School District began governance of all educational programs at the Anoka County Juvenile Center on July 1, 2012. The four original components of Pines School included residential education in Anoka County Secure program, Anoka County Non-Secure program, East Central Regional Juvenile Center program, and the Pines Day Program.

On July 1, 2014, Centennial School District #12 expanded the educational services offered at the Pines School to include educational assessment services called Apollo. This expansion included additional classrooms, educational staff offices, and storage space.

Pines School leadership team has changed three times since 2012 which were largely related to the retirement of long-term Director of Alternative Programs and Special Education Director. The current Director is in his seventh year of overseeing Pines School and CALC educational programs for Centennial School District #12.

In 2018 the Centennial School District #12 Special Education Director re-established Pines summer school based on the model used by the district. Students in the residential programs attend summer school for three hours per day, four days per week, for six weeks.

### East Central Regional Juvenile Center(RJC) 2022 Short-Term Treatment Risk/Change Elements

**Criminogenic Risk Scale:**

- 7.0 Scale of Criminogenic Risks – 7.0 = HIGH
  - Resident admission average score = 3.76
  - Resident discharge average score = 3.25
- Residents’ criminogenic risks are reduced during RJC programming

**Motivation to Change Scale:**

- Motivation “to change” score is scaled at 10.0 = HIGH and 1.0 = LOW
  - Average resident admission motivation to change score = 6.61
  - Average resident discharge motivation to change score = 8.27
- Confidence Score – 10.0 = high belief in making the change and 1.0 = low belief in making the change
  - Average resident admission confidence in change score = 6.73
  - Average resident discharge confidence in change score = 7.88

ECRJC court-ordered short-term group program residents complete a personal assessment inventory of the seven universally accepted criminogenic risk factors and rank their motivation and confidence to change based on the “cycle of behavior change” recognized in the motivational interviewing change wheel.

ECRJC developed the Pre-Program Assessment inventory (completed within the first week) and Post-Program Assessment inventory (completed the last week). Residents initially meet with their primary counselor to review criminogenic needs to develop a case plan. Then residents follow up with the Program Coordinator to ensure the accurate criminogenic needs are being targeted based on file review and collateral resources. All submitted criminogenic factors, motivation to change, and confidence to change data is recorded resulting in these outcomes.
