

Ramsey Gateway Highway 10 Project

Public Meeting Summary | April 12, 2023

~70 OPEN HOUSE ATTENDEES

Thank you to everyone who attended the April 12, 2023 public meetings! Two in-person meetings were held at Ramsey City Hall, one for business and property owners and the other for the general public. Information shared included the final project design and plans for construction including staging, detours, and communications. Materials and feedback opportunities were also provided online.

Summary of Questions and Comments Heard

How will local access be maintained during Stage 2 of construction?

During Stage 2, the Sunfish Lake Blvd intersection will be closed. Traffic access to the north of the BNSF railway will be provided by the regional detour route. (see map to the right) Traffic access to the south of Hwy 10/169 will be provided along Riverdale Dr, which will have temporary traffic signal access to and from Hwy 10/169 near Anoka Technical College and at Ramsey Blvd.

How will local access be maintained during Stage 3 of construction?

During Stage 3, the Ramsey Blvd intersection will be closed. The newly completed Sunfish Lake Blvd interchange will provide local access. Additionally, frontage road construction will occur. Business access will be maintained at all times during completion of the frontage road.

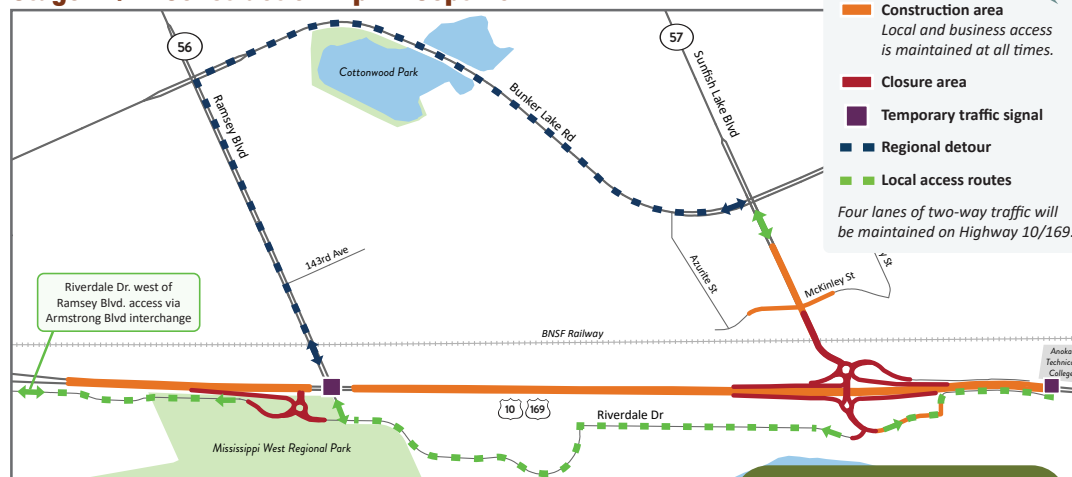

What will traffic routes along Highway 10 be like during construction?

Highway 10/169 will be able to accommodate 2 lanes of traffic in each direction throughout the duration of construction.

Aside from questions about construction staging and access routes, there was much support for the final design, relief that two traffic lanes in each direction will be maintained on Hwy 10/169, and excitement for construction to begin!

Review detailed staging maps like the one below on the virtual open house webpage!

Stage 2A/2B Construction: April - Sept. 2024

Draft Subject to Change
